In The Day's News

By FRANK JENKINS

What is happening at Geneva?
I wouldn't know, of course. But
Allen Dulles, chief of the U.S.
Central Intelligence agency, gives
us some good advice. He says:
"No lasting security is possible
in the world as long as the present
Soviet system remains. The men
in the Kremlin have great facility
for changing their tactics as con-
venience and circumstances dic-
tate."
